## COMPANY PROFILE

KAILI AUTOMOTIVE GROUP CO., LTD.

As one of China's top automotive manufacturers, our water trucks and garbage trucks have held the number one sales position in China for several years. Our fuel trucks, truck-mounted cranes, tow trucks, and RVs also rank among the top three in their markets. Almost every type of vehicle we produce sells well. Kaili is recognized as a global leader in high-end specialty vehicle manufacturing, focusing on the research, development, production, sales, and export of specialty vehicles, as well as vehicle parts and accessories.

To provide our global customers with better products, faster service, more innovative ideas, and comprehensive after-sales support, we are establishing KD (Knock-Down) factories worldwide. Our projects in East Africa, Russia, and Central Asia are already in production. We are also in discussions with countries and regions in South America, the Middle East, and West Africa, aiming to start these projects within the next year.

Our company is based in Suizhou, Hubei Province, the heart of China's specialty vehicle industry. We have a state-of-the-art factory that is a benchmark in the industry, featuring 5G smart factory capabilities. This facility includes a modern production command center, automated processing centers, painting and assembly lines, as well as R&D and product exhibition centers, all equipped with leading production technology. We have automated production lines for water trucks, fuel trucks, fire trucks, garbage trucks, RVs, construction vehicles, and laser cutting for parts. Our factory is at the cutting edge of technology, with over 50 welding robots and top-tier software and hardware management.

The group operates three industrial parks with a total building area of 260,000 square meters, employing 1,300 staff and running 28 assembly lines. Our annual production capacity is 25,000 specialty vehicles, more than enough to meet your large-scale transportation needs. We have successfully applied for 58 scientific research patents. Thanks to our advanced engineering, our specialty vehicles are known worldwide for their reliability and outstanding performance.

To ensure you get the best solution tailored to local road conditions, climate, fuel types, new energy sources, and driving habits—and to avoid online fraud—we warmly invite you to visit our factory. This way, you can inspect our trucks in person and also enjoy the local sights.

Kaili Special Automobile was founded on September **26, 2016**

Registered capital **CNY 100 million**

Covering an area of **233333m<sup>2</sup>**

Having **148** independent intellectual property rights

More than **280** various engineering and technical personnel

# BUSINESS PERFORMANCE

Over the past seven years, our company has grown steadily from its inception, expanding from a single focus to a comprehensive range, and accelerating from a gradual pace to rapid development, taking one step at a time. We have cumulatively produced and sold over 60,000 units (sets) of special vehicles (equipment). Our sprinkler trucks and garbage trucks have consistently ranked first in sales for consecutive years in China, while our oil tank trucks, truck-mounted cranes, tow trucks, and RVs also rank among the top three in sales. Essentially, all types of vehicles we produce have achieved excellent sales performance.

# PRODUCT LIST

<b>Garbage truck</b>	Compactor garbage truck	<b>Fire truck</b>	Chemical fire truck	<b>Tow truck</b>	Tow truck mounted crane	
	Dump garbage truck		Water tower fire truck		Wrecker tow truck	
	Dumper placer garbage truck		Fire department utility truck		Rotator tow truck	
	Kitchen waste garbage truck		<b>RV</b>	Multipurpose fire truck	<b>Bucket Truck</b>	Insulated bucket truck
	Side loader garbage truck			Pumper fire truck		Articulated bucket truck
	Hook loader garbage truck			Motorhome		Telescopic bucket truck
<b>Road cleaning</b>	Water sprinkler truck	<b>Tank truck</b>	Travel trailer	Articulated telescopic bucket truck		
	Green spraying truck		Oil tank truck	Ladder lift truck		
	Dust suppression truck		Fuel tank truck	<b>Truck with crane</b>		Articulating truck mounted crane

# DOMESTIC OVERSEAS

The production modes of SKD (Semi Knock Down) and CKD (Completely Knock Down) are one of our core strengths. We boast a seasoned and proficient professional team that is intimately familiar with the core technologies and processes of SKD and CKD production. We have successfully realized the platformization and modularization of special vehicles, and possess outstanding capabilities in off-site assembly techniques. In the field of special vehicle manufacturing, we have significantly enhanced production efficiency, reduced transportation costs, and simultaneously catered to the diverse needs of overseas factory construction.
